

Youth Echoes Project- Glasgow

Youth Echoes experience was truly remarkable for us.

Not only did we had the opportunity to visit a beautiful country, we had the privilege to be exposed to new cultures, to make new friends with different nationalities. Some of us didn't think it was possible to make friends in just four days, but this trip proved us wrong. We made wonderful friendships and met people that we are still in contact with. We felt like we were at home because we were well received!

We have the best memories from Scotland and we came back home with a new perspective of the world. We saw in first-hand how different cultures can be and that we don't have to be confined to our little country in the edge of Europe.

This experience really made us grow, not only culturally but as human beings also.

The people who made this project happen gave us belief that anything can be accomplished true dedication.

Thank you Comenius.
